

Bioblitz 2013

at the Washington Park Arboretum

This will be our third attempt to catalogue all the various organism living in this urban oasis and we need your help.

Join a “taxa team” and tag along with one of our field scientists to seek out and document the following taxa groups: plants; birds; bats; fungi; mammals; reptiles & amphibians; insects & arachnids.

Space is limited, so [click here](#) to sign up for a shift.

Friday, May 10th
