

Meeting the Challenge: Preventing, Detecting, and Controlling Invasive Plants
September 16 17, 2014, University of Washington Botanic Gardens, Seattle, WA
Conference Schedule

Day 1: September 16																					
8:00-9:00	Registration - Northwest Horticultural Society (NHS) Hall																				
9:00-9:10	Welcome by Dr. Sarah Reichard, Director, University of Washington Botanic Gardens - NHS Hall																				
9:10-10:00	Plenary Speaker: Dr. Dan Simberloff, University of Tennessee - NHS Hall "Invasion Science: Meteoric Rise, and Now a Reaction"																				
10:00-10:20	Break - Merrill Commons																				
10:25-12:10	Opening Conference Session - NHS Hall																				
	<table border="1"> <thead> <tr> <th colspan="2">Opening Conference Session - NHS Hall Moderated by Lizbeth Seebacher</th> </tr> </thead> <tbody> <tr> <td>10:30-10:50</td> <td>"Baseline Assessment of Invasive Species in the Puget Sound Basin and Other Activities of the Washington Invasive Species Council" <i>Mike Leech, Spatial Development International, LLC</i></td> </tr> <tr> <td>10:50-11:10</td> <td>"Patterns and Vulnerabilities of Arctic Alaska to Non-Native Plant Invasion: Estimating Current and Future Susceptibility in the Face of Climate Change and Development" <i>Matthew Carlson, University of Alaska</i></td> </tr> <tr> <td>11:10-11:30</td> <td>"Thirteen Years of Bad Luck: Garlic Mustard in WA from 2000-2013" <i>Sasha Shaw, King County Noxious Weed Control Program</i></td> </tr> <tr> <td>11:30-11:50</td> <td>"Direct and Indirect Impacts of Invasive Plants to Wildlife" <i>Shawna Bautista, US Forest Service</i></td> </tr> <tr> <td>11:50-12:10</td> <td>"Twenty-first Century Issues for Invasion Biology: Managed Relocations of Rare Species and the Use of Non-invasive Cultivars of Invasive Species" <i>Sarah Reichard, University of Washington</i></td> </tr> </tbody> </table>	Opening Conference Session - NHS Hall Moderated by Lizbeth Seebacher		10:30-10:50	"Baseline Assessment of Invasive Species in the Puget Sound Basin and Other Activities of the Washington Invasive Species Council" <i>Mike Leech, Spatial Development International, LLC</i>	10:50-11:10	"Patterns and Vulnerabilities of Arctic Alaska to Non-Native Plant Invasion: Estimating Current and Future Susceptibility in the Face of Climate Change and Development" <i>Matthew Carlson, University of Alaska</i>	11:10-11:30	"Thirteen Years of Bad Luck: Garlic Mustard in WA from 2000-2013" <i>Sasha Shaw, King County Noxious Weed Control Program</i>	11:30-11:50	"Direct and Indirect Impacts of Invasive Plants to Wildlife" <i>Shawna Bautista, US Forest Service</i>	11:50-12:10	"Twenty-first Century Issues for Invasion Biology: Managed Relocations of Rare Species and the Use of Non-invasive Cultivars of Invasive Species" <i>Sarah Reichard, University of Washington</i>								
Opening Conference Session - NHS Hall Moderated by Lizbeth Seebacher																					
10:30-10:50	"Baseline Assessment of Invasive Species in the Puget Sound Basin and Other Activities of the Washington Invasive Species Council" <i>Mike Leech, Spatial Development International, LLC</i>																				
10:50-11:10	"Patterns and Vulnerabilities of Arctic Alaska to Non-Native Plant Invasion: Estimating Current and Future Susceptibility in the Face of Climate Change and Development" <i>Matthew Carlson, University of Alaska</i>																				
11:10-11:30	"Thirteen Years of Bad Luck: Garlic Mustard in WA from 2000-2013" <i>Sasha Shaw, King County Noxious Weed Control Program</i>																				
11:30-11:50	"Direct and Indirect Impacts of Invasive Plants to Wildlife" <i>Shawna Bautista, US Forest Service</i>																				
11:50-12:10	"Twenty-first Century Issues for Invasion Biology: Managed Relocations of Rare Species and the Use of Non-invasive Cultivars of Invasive Species" <i>Sarah Reichard, University of Washington</i>																				
12:10-1:25	Lunch - Merrill Commons																				
1:30-2:50	Break-out Sessions: NHS Hall and Douglas Classroom																				
	<table border="1"> <thead> <tr> <th colspan="2">Session D: Pathways and Prevention - NHS Hall Moderated by Regina Rochefort</th> <th colspan="2">Session A: Controlling Invasive Plants - Douglas Classroom Moderated by Tim Miller</th> </tr> </thead> <tbody> <tr> <td>1:30-1:50</td> <td>"The PlantRight Plant Risk Evaluation Tool" <i>Lizbeth Seebacher, Washington Department of Ecology</i></td> <td colspan="2">"English Holly in PNW Forests" <i>David Stokes, University of Washington</i></td> </tr> <tr> <td>1:50-2:10</td> <td>"Utilizing Ecological Principles of Weed Management in Wetland and Stream Restoration Design to Discourage Invasives" <i>Sarah Cooke, Cooke Scientific and Washington State Noxious Weed Control Board</i></td> <td colspan="2">"The performance fit using aminocyclopyrachlor herbicide blends in controlling invasive plants in the western USA" <i>John Cantlon, El DuPont deNemours and Company</i></td> </tr> <tr> <td>2:10-2:30</td> <td>"Milfoil Eradication by Diver Hand Pulling in Walsh Lake, WA" <i>Rob Zisette, Herrera</i></td> <td colspan="2">"Effects of logging debris and herbicide treatments on abundance of nonnative plant species after forest harvesting in western Washington" <i>Tim Harrington, USFS Pacific Northwest Research Station</i></td> </tr> <tr> <td>2:30-2:50</td> <td>"Crows and the Recruitment of Invasive Plant Species in a Restored Freshwater Wetland" <i>Warren Gold, University of Washington</i></td> <td colspan="2">"A Custom GPS Recording System for Improving Operational Performance of Aerially-Deployed Herbicide Ballistic Technology" <i>Roberto Rodriguez, University of Hawaii</i></td> </tr> </tbody> </table>	Session D: Pathways and Prevention - NHS Hall Moderated by Regina Rochefort		Session A: Controlling Invasive Plants - Douglas Classroom Moderated by Tim Miller		1:30-1:50	"The PlantRight Plant Risk Evaluation Tool" <i>Lizbeth Seebacher, Washington Department of Ecology</i>	"English Holly in PNW Forests" <i>David Stokes, University of Washington</i>		1:50-2:10	"Utilizing Ecological Principles of Weed Management in Wetland and Stream Restoration Design to Discourage Invasives" <i>Sarah Cooke, Cooke Scientific and Washington State Noxious Weed Control Board</i>	"The performance fit using aminocyclopyrachlor herbicide blends in controlling invasive plants in the western USA" <i>John Cantlon, El DuPont deNemours and Company</i>		2:10-2:30	"Milfoil Eradication by Diver Hand Pulling in Walsh Lake, WA" <i>Rob Zisette, Herrera</i>	"Effects of logging debris and herbicide treatments on abundance of nonnative plant species after forest harvesting in western Washington" <i>Tim Harrington, USFS Pacific Northwest Research Station</i>		2:30-2:50	"Crows and the Recruitment of Invasive Plant Species in a Restored Freshwater Wetland" <i>Warren Gold, University of Washington</i>	"A Custom GPS Recording System for Improving Operational Performance of Aerially-Deployed Herbicide Ballistic Technology" <i>Roberto Rodriguez, University of Hawaii</i>	
Session D: Pathways and Prevention - NHS Hall Moderated by Regina Rochefort		Session A: Controlling Invasive Plants - Douglas Classroom Moderated by Tim Miller																			
1:30-1:50	"The PlantRight Plant Risk Evaluation Tool" <i>Lizbeth Seebacher, Washington Department of Ecology</i>	"English Holly in PNW Forests" <i>David Stokes, University of Washington</i>																			
1:50-2:10	"Utilizing Ecological Principles of Weed Management in Wetland and Stream Restoration Design to Discourage Invasives" <i>Sarah Cooke, Cooke Scientific and Washington State Noxious Weed Control Board</i>	"The performance fit using aminocyclopyrachlor herbicide blends in controlling invasive plants in the western USA" <i>John Cantlon, El DuPont deNemours and Company</i>																			
2:10-2:30	"Milfoil Eradication by Diver Hand Pulling in Walsh Lake, WA" <i>Rob Zisette, Herrera</i>	"Effects of logging debris and herbicide treatments on abundance of nonnative plant species after forest harvesting in western Washington" <i>Tim Harrington, USFS Pacific Northwest Research Station</i>																			
2:30-2:50	"Crows and the Recruitment of Invasive Plant Species in a Restored Freshwater Wetland" <i>Warren Gold, University of Washington</i>	"A Custom GPS Recording System for Improving Operational Performance of Aerially-Deployed Herbicide Ballistic Technology" <i>Roberto Rodriguez, University of Hawaii</i>																			
2:50 - 3:15	Break - Merrill Commons																				
3:20-4:40	Break-out Session: NHS Hall and Douglas Classroom																				
	<table border="1"> <thead> <tr> <th colspan="2">Session A: Controlling Invasive Plants - NHS Hall Moderated by Tim Harrington</th> <th colspan="2">Session C: Prediction, Early Detection, and Mapping - Douglas Classroom Moderated by Alison Halpern</th> </tr> </thead> <tbody> <tr> <td>3:20-3:40</td> <td>"Garden Loosestrife: a history in King County, WA and the latest control methods" <i>Ben Peterson, King County Noxious Weed Control Program</i></td> <td colspan="2">"Volunteers Make a Difference in an Early Detection Rapid Response Citizen Science Program" <i>Julie Combs, PNW Invasive Plant Council</i></td> </tr> <tr> <td>3:40-4:00</td> <td>"Fighting Giant Hogweed" <i>Karen Peterson, King County Noxious Weed Control Program</i></td> <td colspan="2">"Reaching Infomaniacs in a Post Brochure Era" <i>Jennifer Grenz, Invasive Species Council of Metro Vancouver</i></td> </tr> <tr> <td>4:00-4:20</td> <td>"Flowering Rush: A New Biocontrol Project for North America" <i>Jennifer Andreas, WSU Extension</i></td> <td colspan="2">"Piecing Together a Low-Budget Early Detection Volunteer Program" <i>Sasha Shaw, King County Noxious Weed Control Program</i></td> </tr> <tr> <td>4:20-4:40</td> <td>"Controlling Reed Canarygrass Populations in the Ross Lake National Recreation Area – Adapting to Improve; a Ten Year Retrospective" <i>Todd Neel, North Cascades National Park</i></td> <td colspan="2">"Elodea in Southcentral Alaska: Early Detection and Rapid Response in Action" <i>Elizabeth Bella, Kenai National Wildlife Refuge</i></td> </tr> </tbody> </table>	Session A: Controlling Invasive Plants - NHS Hall Moderated by Tim Harrington		Session C: Prediction, Early Detection, and Mapping - Douglas Classroom Moderated by Alison Halpern		3:20-3:40	"Garden Loosestrife: a history in King County, WA and the latest control methods" <i>Ben Peterson, King County Noxious Weed Control Program</i>	"Volunteers Make a Difference in an Early Detection Rapid Response Citizen Science Program" <i>Julie Combs, PNW Invasive Plant Council</i>		3:40-4:00	"Fighting Giant Hogweed" <i>Karen Peterson, King County Noxious Weed Control Program</i>	"Reaching Infomaniacs in a Post Brochure Era" <i>Jennifer Grenz, Invasive Species Council of Metro Vancouver</i>		4:00-4:20	"Flowering Rush: A New Biocontrol Project for North America" <i>Jennifer Andreas, WSU Extension</i>	"Piecing Together a Low-Budget Early Detection Volunteer Program" <i>Sasha Shaw, King County Noxious Weed Control Program</i>		4:20-4:40	"Controlling Reed Canarygrass Populations in the Ross Lake National Recreation Area – Adapting to Improve; a Ten Year Retrospective" <i>Todd Neel, North Cascades National Park</i>	"Elodea in Southcentral Alaska: Early Detection and Rapid Response in Action" <i>Elizabeth Bella, Kenai National Wildlife Refuge</i>	
Session A: Controlling Invasive Plants - NHS Hall Moderated by Tim Harrington		Session C: Prediction, Early Detection, and Mapping - Douglas Classroom Moderated by Alison Halpern																			
3:20-3:40	"Garden Loosestrife: a history in King County, WA and the latest control methods" <i>Ben Peterson, King County Noxious Weed Control Program</i>	"Volunteers Make a Difference in an Early Detection Rapid Response Citizen Science Program" <i>Julie Combs, PNW Invasive Plant Council</i>																			
3:40-4:00	"Fighting Giant Hogweed" <i>Karen Peterson, King County Noxious Weed Control Program</i>	"Reaching Infomaniacs in a Post Brochure Era" <i>Jennifer Grenz, Invasive Species Council of Metro Vancouver</i>																			
4:00-4:20	"Flowering Rush: A New Biocontrol Project for North America" <i>Jennifer Andreas, WSU Extension</i>	"Piecing Together a Low-Budget Early Detection Volunteer Program" <i>Sasha Shaw, King County Noxious Weed Control Program</i>																			
4:20-4:40	"Controlling Reed Canarygrass Populations in the Ross Lake National Recreation Area – Adapting to Improve; a Ten Year Retrospective" <i>Todd Neel, North Cascades National Park</i>	"Elodea in Southcentral Alaska: Early Detection and Rapid Response in Action" <i>Elizabeth Bella, Kenai National Wildlife Refuge</i>																			
4:45 - 6:30	Social - Merrill Hall and Commons																				
5:00 - 6:30	Poster Presentations - Elisabeth C. Miller Library																				
End Day 1																					

Meeting the Challenge: Preventing, Detecting, and Controlling Invasive Plants
September 16 17, 2014, University of Washington Botanic Gardens, Seattle, WA
Conference Schedule

Day 2: September 17																									
8:00-9:00	Registration - Northwest Horticultural Society (NHS) Hall																								
9:00-9:10	Welcome back by Dr. Sarah Reichard - NHS Hall																								
9:10-10:00	Plenary Speaker: Dr. Jason McLachlan, University of Notre Dame - NHS Hall "How much does climate change challenge the underpinnings of invasive species management?"																								
10:00-10:20	Break - Merrill Commons																								
10:25-12:10	Break-out Session: NHS Hall and Douglas Classroom																								
	<table border="1"> <thead> <tr> <th colspan="2">Session B: Ecological Interactions and Impacts - NHS Hall Moderated by Shawna Bautista</th> <th colspan="2">Session C: Prediction, Early Detection, and Mapping - Douglas Classroom Moderated by Mandy Tu</th> </tr> </thead> <tbody> <tr> <td>10:30-10:50</td> <td>"Predicting flowering times of native and non-native plants in Alaska using data from herbarium specimens and citizen science networks" <i>Christa Mulder, University of Alaska</i></td> <td>10:30-10:50</td> <td>"Quantitative Uncertainty Analysis For A Weed Risk Assessment Model" <i>Barney Caton, USDA Plant Protection and Quarantine</i></td> </tr> <tr> <td>10:50-11:10</td> <td>"Invasive white sweetclover affects plant-pollinator community interactions in interior Alaska" <i>Matthew Carlson, University of Alaska</i></td> <td>10:50-11:10</td> <td>"Improving efficiency of EDRR invasive plant management operations using optimized field data workflows" <i>Jeff Lesh, Clackamas County Soil & Water Conservation District</i></td> </tr> <tr> <td>11:10-11:30</td> <td>"Impacts of Invasive English holly (Ilex aquifolium) on Understory Vegetation in a Maturing Pacific Northwest Western Hemlock Zone Forest" <i>Elliott Church, University of Washington</i></td> <td>11:10-11:30</td> <td>"A spatially explicit model of the presence of English holly (Ilex aquifolium): Spatial relationships and implications for management" <i>Santiago Lopez, University of Washington</i></td> </tr> <tr> <td>11:30-11:50</td> <td>"Impacts of asymmetric phenological shifts on pollinator-mediated seed production" <i>Susan Waters, University of Washington</i></td> <td>11:30-11:50</td> <td>"Fine Resolution Mapping Methodology for Land Mangers to Track Efficacy" <i>Frances Lucero, King County Noxious Weed Control Program</i></td> </tr> <tr> <td>11:50-12:10</td> <td>"Effects of aquatic herbicide tank mixes on metamorphic Northern Red-legged Frogs" <i>Amy Yahnke, University of Washington</i></td> <td>11:50-12:10</td> <td>"A Hybrid Approach to Real-Time Data Collection and Mapping of Noxious Weeds" <i>Landon Udo, WSDA</i></td> </tr> </tbody> </table>	Session B: Ecological Interactions and Impacts - NHS Hall Moderated by Shawna Bautista		Session C: Prediction, Early Detection, and Mapping - Douglas Classroom Moderated by Mandy Tu		10:30-10:50	"Predicting flowering times of native and non-native plants in Alaska using data from herbarium specimens and citizen science networks" <i>Christa Mulder, University of Alaska</i>	10:30-10:50	"Quantitative Uncertainty Analysis For A Weed Risk Assessment Model" <i>Barney Caton, USDA Plant Protection and Quarantine</i>	10:50-11:10	"Invasive white sweetclover affects plant-pollinator community interactions in interior Alaska" <i>Matthew Carlson, University of Alaska</i>	10:50-11:10	"Improving efficiency of EDRR invasive plant management operations using optimized field data workflows" <i>Jeff Lesh, Clackamas County Soil & Water Conservation District</i>	11:10-11:30	"Impacts of Invasive English holly (Ilex aquifolium) on Understory Vegetation in a Maturing Pacific Northwest Western Hemlock Zone Forest" <i>Elliott Church, University of Washington</i>	11:10-11:30	"A spatially explicit model of the presence of English holly (Ilex aquifolium): Spatial relationships and implications for management" <i>Santiago Lopez, University of Washington</i>	11:30-11:50	"Impacts of asymmetric phenological shifts on pollinator-mediated seed production" <i>Susan Waters, University of Washington</i>	11:30-11:50	"Fine Resolution Mapping Methodology for Land Mangers to Track Efficacy" <i>Frances Lucero, King County Noxious Weed Control Program</i>	11:50-12:10	"Effects of aquatic herbicide tank mixes on metamorphic Northern Red-legged Frogs" <i>Amy Yahnke, University of Washington</i>	11:50-12:10	"A Hybrid Approach to Real-Time Data Collection and Mapping of Noxious Weeds" <i>Landon Udo, WSDA</i>
Session B: Ecological Interactions and Impacts - NHS Hall Moderated by Shawna Bautista		Session C: Prediction, Early Detection, and Mapping - Douglas Classroom Moderated by Mandy Tu																							
10:30-10:50	"Predicting flowering times of native and non-native plants in Alaska using data from herbarium specimens and citizen science networks" <i>Christa Mulder, University of Alaska</i>	10:30-10:50	"Quantitative Uncertainty Analysis For A Weed Risk Assessment Model" <i>Barney Caton, USDA Plant Protection and Quarantine</i>																						
10:50-11:10	"Invasive white sweetclover affects plant-pollinator community interactions in interior Alaska" <i>Matthew Carlson, University of Alaska</i>	10:50-11:10	"Improving efficiency of EDRR invasive plant management operations using optimized field data workflows" <i>Jeff Lesh, Clackamas County Soil & Water Conservation District</i>																						
11:10-11:30	"Impacts of Invasive English holly (Ilex aquifolium) on Understory Vegetation in a Maturing Pacific Northwest Western Hemlock Zone Forest" <i>Elliott Church, University of Washington</i>	11:10-11:30	"A spatially explicit model of the presence of English holly (Ilex aquifolium): Spatial relationships and implications for management" <i>Santiago Lopez, University of Washington</i>																						
11:30-11:50	"Impacts of asymmetric phenological shifts on pollinator-mediated seed production" <i>Susan Waters, University of Washington</i>	11:30-11:50	"Fine Resolution Mapping Methodology for Land Mangers to Track Efficacy" <i>Frances Lucero, King County Noxious Weed Control Program</i>																						
11:50-12:10	"Effects of aquatic herbicide tank mixes on metamorphic Northern Red-legged Frogs" <i>Amy Yahnke, University of Washington</i>	11:50-12:10	"A Hybrid Approach to Real-Time Data Collection and Mapping of Noxious Weeds" <i>Landon Udo, WSDA</i>																						
12:10-1:15	Lunch - Merrill Commons																								
1:20-3:00	Closing Group Session - NHS Hall																								
	<table border="1"> <thead> <tr> <th colspan="2">Closing conference session - NHS Hall Moderated by Matt Carlson</th> </tr> </thead> <tbody> <tr> <td>1:20-1:40</td> <td>"Maximum Flex: UW-ONRC Meets the Evolving Challenges of Washington's Spartina Eradication Program" <i>Miranda Wecker, UW Olympic Natural Resources Center</i></td> </tr> <tr> <td>1:40-2:00</td> <td>"Battle Tactics from Camp Ripley; the War on Invasive Species" <i>Kayla Malone, Saint Cloud State University</i></td> </tr> <tr> <td>2:00-2:20</td> <td>"The PPQ Weed Risk Assessment" <i>Anthony Koop, USDA Plant Protection and Quarantine</i></td> </tr> <tr> <td>2:20-2:40</td> <td>"Mapping Invasive Species with EDDMapS West" <i>David Moorhead, University of Georgia Center for Invasive Species</i></td> </tr> <tr> <td>2:40-3:00</td> <td>"Web Based Solutions for Invasive Species Managers" <i>Steven Manning, PNW Invasive Plant Council</i></td> </tr> </tbody> </table>	Closing conference session - NHS Hall Moderated by Matt Carlson		1:20-1:40	"Maximum Flex: UW-ONRC Meets the Evolving Challenges of Washington's Spartina Eradication Program" <i>Miranda Wecker, UW Olympic Natural Resources Center</i>	1:40-2:00	"Battle Tactics from Camp Ripley; the War on Invasive Species" <i>Kayla Malone, Saint Cloud State University</i>	2:00-2:20	"The PPQ Weed Risk Assessment" <i>Anthony Koop, USDA Plant Protection and Quarantine</i>	2:20-2:40	"Mapping Invasive Species with EDDMapS West" <i>David Moorhead, University of Georgia Center for Invasive Species</i>	2:40-3:00	"Web Based Solutions for Invasive Species Managers" <i>Steven Manning, PNW Invasive Plant Council</i>												
Closing conference session - NHS Hall Moderated by Matt Carlson																									
1:20-1:40	"Maximum Flex: UW-ONRC Meets the Evolving Challenges of Washington's Spartina Eradication Program" <i>Miranda Wecker, UW Olympic Natural Resources Center</i>																								
1:40-2:00	"Battle Tactics from Camp Ripley; the War on Invasive Species" <i>Kayla Malone, Saint Cloud State University</i>																								
2:00-2:20	"The PPQ Weed Risk Assessment" <i>Anthony Koop, USDA Plant Protection and Quarantine</i>																								
2:20-2:40	"Mapping Invasive Species with EDDMapS West" <i>David Moorhead, University of Georgia Center for Invasive Species</i>																								
2:40-3:00	"Web Based Solutions for Invasive Species Managers" <i>Steven Manning, PNW Invasive Plant Council</i>																								
3:00-3:15	Break																								
3:15-4:00	Conference close: synthesis and next steps. Facilitated discussion.
