**See website for details.**

**Speakers and Program Information:** <http://bit.ly/urban-forest>

As we face increasingly complex problems, we often seek out partners with common values to leverage strengths and make a greater impact. Whether you are working to restore and maintain a healthy urban forest, preserve and grow public green space, increase equitable access to the urban forest, or improve public health outcomes, it can often feel like there's too much work to be done and not enough time or money. At this urban forest symposium, presenters from nonprofits, government, business and educational institutions will explain different models for building effective partnerships, how partnering has worked for both small and large organizations to address some of our most pressing urban forestry challenges, and ways you can implement these ideas in your workplace/organization to be more successful and make a greater impact.

### **Presenters Include**

- ◆ Nalini Nadkarni, Professor, Department of Biology | University of Utah
- ◆ Tracy L. Stanton, Ambassador | Green-Duwamish, Urban Waters Partnership
- ◆ Dale Blahna, Research Social Scientist | US Forest Service, PNW Research Station
- ◆ Desiree' Kennedy, Development Associate | Metro Parks Tacoma
- ◆ City Habitats Coalition Panel, including The Nature Conservancy, Seattle Parks Foundation, Urban Systems Design, and King County
- ◆ David Cohen, Program Director | The Intertwine Alliance
- ◆ Eric Higbee, Executive Director | The Pomegranate Center
