2022 Ecological Restoration Professional Series:
Foundational Concepts and Implementation Essentials for
Resilient, Inclusive Landscapes

Two 2-hr virtual webinars and one in-person field session per quarter.
Register at http://bit.ly/ProHort or by phone at (206) 685-8033.

Instructor: Jodie Galvan, Certified Ecological Restoration Practitioner

Covering the fundamental principles of ecological restoration and best practices for applying those principles in our increasingly dynamic world. The series is grounded in case studies of ongoing wetland, forest, and prairie restoration projects at Juanita Bay Park in Kirkland and each class in the series will include site visits and hands-on activities that allow participants to practice what they have learned.

Two-hour virtual webinars will take place on the first two dates of the quarter from 9am-11am followed by an in-person field session on the final date from 9am-12pm at Juanita Bay Park in Kirkland, WA.

Quarter 1
March 15, 17, 22

Quarter 2
May 3, 5, 10

Quarter 3
July 19, 21, 26

Quarter 4
October 18, 20, 25

Restoration Project Design
Restoration Adaptive Management
Restoration Monitoring and Maintenance
Native Plant Selection and Installation

General Admission (cost per quarter): $45 webinars + $20 optional field session
Students/CORPS members will receive a 50% discount
