

Field Trip Group Sizes

Washington Park Arboretum

We're thrilled that you will be doing a field trip with the University of Washington Botanic Gardens! We are very much looking forward to our time with you and your students!

Before the field trip

- Divide all students, educators, and chaperones into **evenly-sized and numbered/named groups**.
- Ensure that all students, educators, and chaperones know to which group number they are assigned.

Day of the trip

- Upon arrival, all participants will meet at the sign with their assigned group number on it. Our instructors will be waiting for them.
- As the organizer of the field trip, please be prepared to assist any individuals that need reminders about what group they are in.

See the table below to find out how many field groups you need for your trip.

Pre-K and Kindergarten & All Homeschool Groups		
Number of Students	Number of Field Groups	Designations
1-12	1	Group 1
